Hi Sir Julius,

**Band 7.0**

I just want you to know that I'm so grateful for your reviewers as I got my desired band score especially in speaking which is 7! If I hadn't come across your youtube channel, I wouldn't be able to speak sensibly and confidently. Although there were no available slots for coaching, you were so nice to share your reviewers with me as an option. Your technique really helped me a lot especially storytelling and ideas came flowing as I delivered my speech during the speaking subtest. I've been honestly delaying this test for 3 years now and I couldn't be happier knowing that I got my desired score in one take 😭 Thank you and may you continue to help people in getting their ticket to success 😊

I achieved my desired score in Speaking! **Band 7.0**

Hi Sir Julius. I just want to say thank you for your help, time and trust that I could make it. Finally, I made it. I passed my speaking test because of you. You and your reviewer are very helpful for me to be more confident and be natural english speaker. I will highly recommend you to all students who are having difficulties in reaching their desire band score. It's all worth it. Thank you so much Sir julius, it's an honor to be one of your student. God bless you always.

Monologues, and PART 3

**ANSWERS**

JULIUS MALAZA  
Author, BAND 9.0 Achiever

## 08.) A SONG OR PIECE OF MUSIC YOU LIKE

Describe a song or piece of music you like

You should:

-what it is about

-whom you knew it from

-which country it is from

and explain why you like it

## IDEAS

### MUSIC GENRES

a. ) **Classical** - Art music produced or rooted in the traditions of Western music during a period from 1750 - 1830

b. ) **Pop** - A famous music genre popularized in the West during the 1950s and 1960s. Songs are typically short to medium-length with repeated choruses, tunes, and hooks.

c. ) **Rock** - Rock and roll music. This type of music gives emphasis on musicianship, live performances, and authenticity

d. ) **Electronic** - A type of music that uses synthesizers and other electronic instruments as a source of sounds.

e. ) **Disco** - A dance type of music that contains the elements of funk, soul, pop, and salsa that was popular in the mid-70s to early 80s.

### REASONS FOR LIKING THE SONG

- a. ) **It evokes emotion** - *The listener relates to the message of the song. It makes him sad, happy, laugh, etc.*
- b. ) **The lyrics are strong** - *The way the lyrics is written is creative and unique, and the rhyming is well-thought-out.*
- c. ) **Melody** - *It's melancholic, lively, upbeat, etc.*

### **LEXICAL RESOURCE**

*Green = definition; Blue = way to use it*

**ADJ. + MUSIC** - *beautiful, sweet, loud, soft, wonderful, contemporary, modern*

**VERB + MUSIC** - *play, listen to, make, perform, put on, compose, write*

**EXPRESSIONS** - **Play at a full blast** (*to play a recording, musical instrument, speaker system, etc. at the maximum volume*) (*I can't help myself but play this song at a full blast as this is really my favorite.*)

**Elevator music** (*a piece of recorded popular music played in the background in public spaces such as elevators, retail stores, etc.*) (*Honestly, I have memorized this song as this is such a piece of elevator music.*)

### **INTERACTIVE SAMPLE MONOLOGUE**

**NOTE:** *The highlighted words below give emphasis to LEXICAL RESOURCE (advanced words, collocations, natural expressions, & cohesive devices) or the GRAMMATICAL RANGE and ACCURACY (i.e. the use of intermediate or advanced sentence construction correctly).*

Well, I wanna talk with you about a song whose message is very **compelling** (*evoking interest, admiration, and attention in a powerfully irresistible way*) that when you listen to it you become emotional. The song title is completely different from the usual song titles that we often hear. Its title is the former phone number of the American National Suicide Prevention Lifeline which is 1-800-273-8255.

This song is sung by the American rapper, Logic, featuring Alessia Cara, a Canadian singer, and American singer, Khalid. **To give you an idea** of how emotional this song is, the first two **verses** (*a section in music that tells the main story of the song*) are from the **perspective** (*point of view*) of a person who is suicidal. He expresses his intention of

ending his life. **In the third verse**, he believes that no one really cares about him and that his life doesn't matter to anyone else. That itself **signifies** *(to be a sign of something)* that a person has a mental health issue and he's battling it on his own. That is actually a mirror of what has been happening in our society. **As you know**, a lot of people end their lives because of depression. Those who committed suicide believed that it was the best thing that they could do to **get away** *(escape)* from the pain in this world. It's sad because they could've been saved if we had **eradicated** *(to get rid of something completely)* the **stigma** *(shame)* of mental illness. *(grammar: the use of a conditional statement)*

Actually, this song was released in 2017 and I only discovered this song during the **height** *(the most intense part)* of the pandemic because this song **blew up** *(to become widely popular)* on Youtube. I think that's because a lot of people got depressed during those difficult times and I believe Youtube pushed this song to a lot of audiences to remind them that if they're suffering from mental health issues, they could call 1-800-273-8255, which is also the title of the song.

**Anyway**, the remaining verses of the song express hope. The singer encourages a suicidal person to keep living because life gets better.

*(NOW, IT'S YOUR TURN! Complete the monologue by adding your own ideas. Imagine you are the one telling this story. Consider these questions: How does this song affect you? Would you recommend this song to others?)*

## **PART 3**

**NOTE:** The highlighted words below give emphasis to LEXICAL RESOURCE

(collocations, advanced words, natural expressions & transitioning devices) or the GRAMMATICAL RANGE & ACCURACY (i.e. the use of intermediate or advanced sentence construction).

### **What kinds of music do you like listening to?**

I listen to all music **genres** (types), **however**, I'm more into listening to jazz and blues because those types of music make me relaxed, most especially if I'm **incredibly** (terribly) tired or stressed out because of work. Well, I started listening to those kinds of music when I was a teen because my grandpa enjoyed listening to those types of music. **So**, my interest in jazz and blues came from my grandpa. He influenced me to like those music genres.

### **What kinds of music are popular in your country?**

**Without a doubt** (without question), it's Western pop music! I believe my country is heavily influenced by the Western world. People in our country **look up to** (admire) pop singers from the West, **as a result**, American or European pop music can be heard everywhere in my country. For me, there's nothing wrong with it because the type of music that a person wants to listen to is a personal choice. We can't ask people to also listen to what we enjoy listening to **and vice versa** (with the order changed; conversely). It's a personal choice and **it just so happens** (used to describe something that occurs by chance) that Western pop music is the number one choice by the majority in my country.

### **Why do some people listen to a song over and over again?**

I think that's because the message of the song **resonates** (to have a powerful effect) with them. Well, songs are composed based on a person's experience in life and love which is not **foreign** (strange, unfamiliar) because somehow everyone shares similar experiences and emotions. People fall in love, get hurt, learn a lesson, let go, **and things like that** (and things similar to those you are discussing). So, it's no wonder why a lot of people continue to listen to a certain song **many times over** (repeatedly) as they can relate to the message of the song.

### **Do you think it's important for children to learn a musical instrument?**

In my opinion, it is important because that helps children develop memory skills and creativity and they'll learn the value of self-expression. Well, learning a musical instrument is never **a piece of cake** (very easy), one needs to remember the different musical notes in order to produce the right sound. When a child learns how to read and

**execute** (*carry out*) musical notes, he'll be able to create his own piece of music wherein he can express his own creativity and emotions. Because of these benefits, I really think parents should make an effort to encourage their children to learn any musical instrument.

**Band 7.5**

Hello Julius,

I got my IELTS result yesterday, I got my required overall band score. But, I would like to say THANK YOU , because my speaking went up to 7.5.

Christina Mary Arumairaj.

Highlighted comment

Jessa Dyan Sambitan • 10 hours ago

Hi Sir Julius,

We finally made it! I got a band 8.0 in speaking!

I would like to express my deepest gratitude because you helped me pass my IELTS speaking exam. Not only that, you also made me realize that I am good at speaking the language. Before our coaching sessions, I did not believe in myself and I had a lot of hesitations when I spoke. However, after 9 sessions with you, I became confident and I was able to think creatively. Because of the strategies you taught me, I was not daunted of the test anymore. I was not scared of not having all the answers because you imparted excellent techniques. I even ended up enjoying my exam.

Also, your ebooks really aided me as I did not find it hard to look for ideas anymore which made my studying efficient. In addition, the vocabularies used in the ebooks were intermediate to advanced which really helped me boost my score.

Again, thank you Sir Julius. I could have not done it without you excellent teachings.

And to anyone who is reading this and is having a hard time preparing for IELTS, please do not lose hope. I believe that in order to pass this exam, you need to have dedication and the right mentor. And in my experience, Sir Julius is the best teacher for IELTS speaking. He made me realize that I am capable of overcoming the exam.

My IELTS Speaking Success Story 🌈

(P.S. Sorry for the long post ahead 😊)

Back in July this year, i had my first attempt at IELTS and scored 6.5 in Speaking, fell short of 0.5 to reach my target score of 7 for US application. And to be honest, it felt like that 0.5 was extremely difficult and impossible to work on because admittedly, im not really conversational and confident in using the English language. However, i'd say that it was perfect timing and i definitely lucked out to come across Sir Julius' channel when i was planning to prepare for another shot at IELTS.

Firstly, i purchased his e-book for Part 3 (because i think this section is my weakness among the 3) which significantly helped me in formulating a structure to make my answers organized and to develop ideas sensibly. Later on, i also learned that he does one-on-one coaching in speaking so without second thoughts, i messaged him and he said yes instantly. ☺ I had my 10-day coaching with Sir Juls before my exam and those sessions really boosted my confidence, helped me a lot to think and respond quickly (because most of the time, my brain was buffering 🤖) and those speaking drills made me more relaxed and comfortable in expressing myself (because i was really stiff on our first few days 😊).

And yes, im elated to say that our sessions definitely worked wonders because i was able to get 8 in Speaking in my 2nd try this November. 🥳

Hi Julius,

Thank you so much for your **REVIEWER**. You are an angel. Seriously, I have **no words to express my gratitude towards your work** because my speaking band score **improved to 7.5 from 5.5**. I'm a working professional and had no proper time for my IELTS preparation. **Eventhough I had a less time**, I just read all topics in your reviewer then analyse how you've developed stories, how you connected two sentences, how you make introduction, tips and whats more.. all these stuffs only I did, whenever I had time. Moreover, I put your video and listened while doing household chores. Just listening and analysing itself improved my score to 7.5. If I had practised more, who knows, I might get even better score. Without REVIEWER, I can't even imagine my score. Thank you so so much again 😊, Julius.

Best Regards,  
Rakshanaa Srinivasan

vaG Ecuba • 7 hours ago

Hi Sir Julius, December 30, last year I purchased an E-Book from you which contains strategies and tips on how to answer speaking part 3 questions. I utilized them all and it was really helpful and effective. I got a 7.5 band in my speaking. I was strategic using those highly effective structures. Thank you sir, without that e-book, I don't think I will be able to develop my answers well. 😊🇺🇸

Thank you very much Sir Julius!!!

I have been taking the IELTS exam for 4x and i always get 6.5 in speaking, and after knowing about your program i was amazed by your videos and i immediately enrolled. After 10 sessions with him i took my IELTS exam last February 26.2022 and i got 7.5 in speaking because of the effective teaching style of Sir Julius.

His system was really effective. He isn't only a teacher but a partner as well.

He taught like a real professional and you just have to follow his system religiously.

His part one strategy will help you to be at ease with the examiner.

His part two monologue is really effective because you will learn to tell the story and enjoy while telling your story while applying different variations in sentence construction.

**Band  
7.5**

His part three strategy really helped me to analyze the question, answer it sensibly and expand the answer without beating around the bush which really increased my confidence. His one on one sessions are really effective because aside from enhancing your speaking skills, we had drills that would help you express yourself.

Try to avail his reviewet because it would really help you have an idea about different questions that might be asked during IELTS.

Enrol his program and im sure you'll pass IELTS with your desired score 🙏

Virangi Sonali  • 1 week ago

Hello Julius, I received my results today, and for speaking, **I received band 7.5**, which is the band score I was aiming for. I am really happy with my results. The speaking cues book was really helpful and based on your monologue, **I've prepared my responses to each of your topics**. Even if we did not receive the exact topic practised, we may alter our speaking points and be fluent on the topic provided to us on exam day if we have prepared for all of the cues. That's exactly what I did in my most recent exam, and your e-book was incredibly useful in assisting me to achieve this band score.

Thank you very much, and I value the service you provide to students. Anyone can put their trust in Julius and take the speaking exam without worry.

Sir Julius,

Speaking 7.0.

# Band 7.0

No words can express how grateful I am for having you as my coach. The e-book that I purchased helps me to have idea on a certain topic and guide me all the throughout the journey. I failed twice and stucked with Speaking at 6.5, it shake my confidence and almost gave up a thinking of pursuing or changing the original plan. Thank you for the encouragement and imparting your strategies or techniques. God bless you always sir and more power to you! By the way, I availed the ebook Sept - Dec 2021 2&3 and January - April 2022 cue cards last February 15. It was definitely good for you to read to have basic knowledge or idea regarding the questions and on how to answer it properly. 5 days before my exam. I did the one-on-one

coaching for 50 minutes - 4times. You are able to identify my strength and weaknesses for a short period of time. And improved my skills in that duration. Be natural as if you're talking with your friends, have emotions, don't be flat, falling intonation and when to know when you're done with the sentence. Highly recommended guys, worth it. Again, thank you Sir Julius

Forever grateful  
Shella

Thank you so much. Yes, of course I will share with you when I finish my study. Anyways, I'm really into the way you use idioms and expressions in each monologue, really natural and sound like true conversation in real life. I have some foreign friends and they said those expressions you used are really easy to imagine. So could you please share a bit about the progress you have learn those words? Like how to know them and practise it in the context.

Thank you so much again for your help.

Dear Julius,

Many many thanks !

I have read your suggestions on how to answer questions in Part 3. My concern has been fully addressed, I misunderstand the meanings of "imagination" and "communication" in English and thus I thought adding some examples are necessary, hoping this kind of feeling can help you communicate with students who are also from China.

Besides, thanks again for the reviewers, they are so practical and provide us an efficient way to prepare for the IELTS speaking&writing part !

Many thanks !

Best regards

Summer
